

I am single mom raising my 11 yr old son every day when we get in our car K-Love is what we hear it is our way to connect every day with God and our right to be able to do so. If this was taken away it would be ashame. I know that this station has helped many of my friend in the community - Just look around and see the road rage and every other kind of anger - When I am connected spiritually it helps every thing I do and others. Thanks
